SICO CALCIUM FORMULATIONS

## **SICO-NITROCAL + Mg (L)**

*Liquid crop supplement with N + Calcium and Magnesium*

### **DESCRIPTION**

SICO-NITROCAL + Mg is a **unique form of nitrogen** that is used to supplement a present Nitrogen programme, having unique chemistry that enables plants to absorb the material rapidly after treatment.

**The nitrogen in SICO-NITROCAL + Mg is a modified urea and resists gasification or leaching of the nitrogen.** SICO-NITROCAL + Mg will help produce heavier yields and decrease physiological damage to fruit and storage. **Contains also calcium and magnesium.**

### **PRODUCT ANALYSIS**

Total Nitrogen	9% w/w (Urea Nitrogen)
Calcium Oxide (CaO)	9.90% (w/w) (7.1% Ca)
Magnesium Oxide (MgO)	2.5% (w/w) (1.525% Mg)

### **APPLICATIONS**

#### **1) Methods of Application**

Through drip irrigation, overhead irrigation, knifed into the soil, banded on the soil.

Spread with herbicide and other crop protection chemicals. Sprayed onto trees and vines during dormant period.

#### **2) Recommendations for use**

SICO-NITROCAL + Mg may be used on the following crops: alfalfa, almonds, apples, artichokes, asparagus, avocados, barley, all beans, broccoli, cabbage, carrots, cauliflower, celery, citrus, cotton, grapes, lettuce, maize, melons, nectarines, peaches, peanuts, peas, peppers, pistachios, potatoes, rice, soybeans, strawberries, sugar beets, sugarcane, sunflowers, sweet corn, tobacco, tomatoes, turnips, walnuts, watermelons, wheat and most other crops.

#### **3) Suggested directions for ornamental use**

Specially formulated stabilized nitrogen along with water-soluble calcium and magnesium in the proper ratios will provide growth and color for nursery, greenhouse and field grown materials. Don't mix with high phosphates or high sulfates. Foliar Feeding: Use 250 – 500g of fertilizer in 400 litres of water and spray to run-off, in houses or outside when temperatures are cool.

#### **4) Directions for use**

- **Soil Applications:** Apply 150-250 litres SICO-NITROCAL + Mg directly to the soil in side-dress application.
- **Drip Irrigation:** Apply 50 litres SICO-NITROCAL + Mg weekly through the drip system. Do this in one application per week.
- **Dormant Sprays:** Apply 150 litres per hectare SICO-NITROCAL + Mg to the dormant tree or vine at least one month before bud break. **Do not spray on non-deciduous fruit trees such as citrus at these rates.**
- **Foliar Sprays:** Apply 12-25 litres per hectare SICO-NITROCAL + Mg weekly along with other crop protection products.

#### **5) Mixing instructions**

Do not mix with fertiliser containing Phosphorus or Sulfates.

Add to tank: 1. Water 2. SICO-NITROCAL + Mg 3. Pesticide

### **CAUTION**

Be sure to conduct the jar test using all products in proper proportion in order to establish physical compatibility.
