& DATASHEET

## SICO CANNAFLOR

*Premium solution for growth and bloom*

*Complete liquid fertiliser for Cannabis Indica & Sativa during flowering in pots and open soil*

### **PRODUCT DESCRIPTION**

**Sico Cannafloor** is a fast acting professional liquid fertiliser containing all nutrients for an optimal flowering. **Sico Cannafloor** stimulates fruit setting, increases potency and gives to each species its characteristic taste. **Sico Cannafloor** is easy to use, dissolves quickly and fully and is very suitable for automatic irrigation systems.

### **TYPICAL PRODUCT PERCENT ANALYSIS (w/v)**

Total Nitrogen (N)	min.	2.1 %
of which	NH <sub>4</sub> -N (ammoniacal N)	0.5 %
	NO <sub>3</sub> <sup>-</sup> (nitrate N)	1.6 %
P <sub>2</sub> O <sub>5</sub>	min.	1.7 %
K <sub>2</sub> O	min.	4 %
MgO		0.9 %
CaO		< 0.1 %
SO <sub>3</sub>		1.3 %
Specific gravity:		1.10 %
pH		1.5 %

### **APPLICATION**

Dissolve 500 ml concentrate in 100 litres of water (1 : 200). The E.C. is then 0.9 - 1.6 mS (= EC of the fertiliser + EC of the water).

For intensive cultures: feed the plants regularly with this solution.

For nutrient poor soils: 1 - 3 times per week together with feeding water.

Shake bottle/can well before use.

Take care of an airy calcium rich soil and feed water every day according to needs.

### **STORAGE**

Store in closed packing (away from UV light, which breaks down the chelates present in the feed), dark and free from frost.

Store out of reach of children.

### **PACKING**

10 litre plastic cans, 90 x 10 lt (900 lt) per pallet, 10 pallets (9000 lt = 11.34 MT net) per 20' fcl or 20 pallets (18000 lt = 22.68 MT net) per 40' fcl. Other packings (1lt/5lt/200lt/ upon request.
