& DATASHEET

# SICOMIX ALBERT SOLUTION

*Soluble powder*

## **1. PRODUCT DESCRIPTION**

A customised mixture of macro, meso and micro-nutrients for use in hydroponics and soilless media (soluble powder) for use in glasshouses and polyethylene tunnels.

## **2. GUARANTEED ANALYSIS**

|                     |        |        |   |             |
|---------------------|--------|--------|---|-------------|
| Total Nitrogen      | (N)    | 10.7   | % |             |
| Available Phosphate | (P2O5) | 9.4    | % | (3.24 % P)  |
| Soluble Potassium   | (K2O)  | 16.7   | % | (13.92 % K) |
| Magnesium Oxide     | (MgO)  | 2.5    | % |             |
| Calcium Oxide       | (CaO)  | 13.3   | % |             |
| Sulphur             | (SO3)  | 4.8    | % |             |
| Boron               | (B)    | 0.004  | % |             |
| Copper              | (Cu)   | 0.0036 | % |             |
| Iron                | (Fe)   | 0.065  | % |             |
| Manganese           | (Mn)   | 0.013  | % |             |
| Zinc                | (Zn)   | 0.015  | % |             |
| Molybdenum          | (Mo)   | 0.002  | % |             |

## **3. RECOMMENDED APPLICATION RATES**

- For foliar spray

Dissolve 10 g in 4.5 – 5 litres water.

- For hydroponics: soilless growing media, etc.

Dissolve 1 kg in 450-500 litres water.
