

**PRODUCT INFO
& DATASHEET**

ATTACK DF HIGH Mg

*Very cost effective water soluble chelated micronutrient mix
For both foliar and soil applications with high magnesium (Mg)*

PRODUCT DESCRIPTION

Chemical Analysis (w/w)

Zn: 0.2%	Fe: 9.3%
Cu: 0.1%	Mg: 4%
B: 0.4%	MgO: 6.6%
Mo: 0.1%	Chelating agent

RECOMMENDATIONS

Special formula originally designed for Malta with extra high Mg esp. for potatoes that are very susceptible to Mg deficiency esp. in warm climates.

ATTACK DF High Mg is esp. recommended on the following crops:

Apples	Apricot	Barley	Beans (all)
Beet	Broccoli	Cabbage	Carrots
Cauliflower	Celery	Cherries	Citrus
Cotton	Cucumber	Eggplant	Grapes
Groundnuts	Hazelnut	Lentil	Lettuce
Maize	Melons	Olive	Onions
Ornamentals	Peaches	Pears	Peas
Pepper	Pistachio	Potatoes	Rice
Soybeans	Strawberries	Sugar	Tomatoes
Wheat	Etc.		

GENERAL APPLICATION RATES

When leaf and soil tests are not available:

- * Maintenance application: where a deficiency is known to occur but does not always show in leaves or fruit: 40 - 60 gr/0.1 ha or per 100 litres water
- * Deficiency: 80 - 100 gr/0.1 ha or per 100 litres water
- * Drip irrigation: 100 gr in 1,000 litres water

MIXING INSTRUCTIONS

ATTACK DF High Mg will disperse in water with little agitation. Many pesticides can be added and applied while spraying.

ATTACK DF High Mg may be used during the flowering time.

Follow this mixing sequence: 1) Water 2) ATTACK DF High Mg 3) Pesticides or fertiliser

To test the compatibility always mix the products in a small container in the ratios to be used before performing the operation in the spray tank. **IF IN DOUBT PLEASE CHECK WITH YOUR SUPPLIER.**

For best results spray early morning or evening, mid-day sprays may not be as effective because of excessive moisture evaporation.

ATTACK DF High Mg is manufactured to **rigidly control the highest possible concentration for effective usage.**

Any residue in this container is water soluble. Rinse the container with water and add solution to spray tank.

Suitable for foliar and soil applications and designed for rapid dispersion in water. May also be used during the flowering time.

PRECAUTIONS

- * Keep out of reach of children.
- * Avoid contact with skin, eyes or clothing.
- * Wash exposed area with water.
- * Rinse equipment after use.
- * Store above 5°C.
- * USE CAUTION WHEN MIXING WITH OTHER MATERIALS. If in doubt we would recommend the use of the "jar test".

PACKING: In 1kg carton, 5kg, 10kg and 25kg bags.
