

SICOCORR GARDEN GREEN (*Erico Mycorrhizal Fungi*) *for garden and landscaping ,especially for Ericads*

04/08/2014

1. ADVANTAGES

- blends perfectly with all substrates
- increases absorption of water
- improves soil structure and aggregation
- increases humus content
- may be used in organic farming in accordance with EC Commission Regulation 889/2008 Article 3(4)
- tolerance of fungicides is proven

2. SPECIFICATIONS

- Ericomycorrhizal Fungi (native strains, does not contain Genetically Modified Organisms (GMOs))	Hymenoscyphus ericae Oidiodendron spp.
- Mycorrhiza Effectiveness (increased growth (%) in standardized test)	24 +/- 6
- Carrier Material	Peat substrate
- Specific weight (g/l)	250-400
- pH	5.0

3. APPLICATION

Annual application near root system

4. DOSAGE

- Blending into substrate	2 to 5% (seedling production)
	5 to 10% (plant production)
- Spreading into planting hole	20 ml/plant (up to 12 cm pot)
	up to 100 ml/plant (up to 10 ltr pot)
- Existing plant formations	According to size of plant up to 100 ml/plant in drilling holes
- Surface treatment	up to 100 ml/m2

5. PACKING

in 25 ltr PP bag, 1000 ltr big bag

6. STORAGE

6 months, under cool and dry conditions

7. SAFETY & HEALTH INSTRUCTIONS

No special precaution necessary.

Avoid breathing or ingestion

Absence of phytopathogens proven (DNA Multiscan®)

Material Safety Data Sheet available
