

PRODUCT INFO
& DATASHEET

SICORGAN-VOM GOLD

*Vegetal Organo Mineral Fertiliser (4 mm pellets) NPK 7-7-7 (40 OM), low chlor
Basic fertiliser for all crops esp. vegetables
- Made in Belgium -*

Revised 03/2017

1. INTRODUCTION

- Topselling basic fertiliser with high organic matter and high NPK content and fairly fast action due high % of Ureic N and high % of water soluble Phosphorus (P), obtained by mixing vegetal raw materials with minerals.
- Potassium (K) coming from SICOVINASSE beet molasses vinasse extract (see datasheet)
- Low in chlor, usable for all crops esp. vegetables.

2. INDICATIVE AVERAGE PRODUCT SPECIFICATIONS

Total Nitrogen (N)	7%	5% Ureic Nitrogen 2% Organic Nitrogen (from cacao shells)
of which		
Total Phosphorus Pentoxide (P2O5)	7%	soluble in water and neutral ammonium citrate (from calcium phosphate)
Potassium Oxide (K2O)	7%	soluble in water (from Sicovinasse vinasse extract, low in chlor)
Organic matter (OM)	40%	(from cacao shells)

LOW IN CHLOR

3. PACKING

- * 25 kg net pe bags, loose stowed, about 20 MT/20ft fcl or 27.80 MT/40ft fcl
- * big bags of 1350 kgs, 27MT/40ft fcl
