*** SICOGREEN®**
CRYSTALLINE FULLY WATER SOLUBLE NPK & NK FERTILISERS
for fertigation, drip irrigation and similar systems

THE PERFECT SOLUTION FOR OPTIMUM YIELD AND QUALITY FOR EACH CROP!

SICOGREEN® NPK's are available in a wide flexible range of formulations with high and low nitrogen/potassium ratios to suit all crops and situations and for optimum balance between vegetative and generative growth.

SICOGREEN® has been designed to meet all growers' needs. Different formulas and compositions meet specific soil/substrate pH conditions.

SICOGREEN® ECONOMY and HP PROGRAMS

1. SICOGREEN ECONOMY program:

We introduced early 2013 our standard SICOGREEN ECONOMY range, produced in our Belgian plant where we also use high quality horticultural grade potassium sulphate (see our SICO-SOLSOP) next to other K2O sources as potassium nitrate & MPK etc.

2. SICOGREEN HIGH PERFORMANCE (HP) program, (not available for all countries) produced in our Dutch plant: is based on compositions using mainly (or only) potassium nitrate as K2O source.

Each formula contains an adapted package of CTE.

We have a large portfolio of standard formulas/compositions.

Products can be colored green, blue, pink, orange, red or yellow.

SICOGREEN®: YOUR IDEAL CHOICE FOR ALL CROPS AND FERTIGATION SYSTEMS!

Can be applied on all crops:

- * vegetable or fruit
- * ornamental or flower
- * open or under cover etc.

when growing under:

- * drip irrigation
- * (mini) sprinkler systems & spraying & microsets
- * pivots or any other water system
- * gravity feed etc.

+ **SICOGREEN®** NPK's can be delivered coloured for easy identification.

+ **SICOGREEN®** NPK's contain a package of effective premium chelated trace elements

+ **SICOGREEN®** NPK's mean also:

* **Rigorous selection** of raw materials (only from E.U. origin!) on purity and solubility, making them more resistant to setting and caking than many of their competitors

* Strict quality control of the finished product before delivery

* Comply with E.C. regulations for fertilisers

* "User friendly" and safe for plant roots and foliage

* Can be used with most insecticides

* Support and technical advice & expertise in function of soil analysis, type of crop, climatic & weather conditions, existing fertilisation programmes: we help to solve plant growth & stress problems.

* **Very nice packaging** (is best point-of-purchase advertising) with product info (which can be in any language) printed at the back of the bag (no stickers used).

*** !! Attention:**

The SICOGREEN range is also available under our LOUSOL, DAVYSOL, PROFISOL, PRIMOSOL and MAESOL brands/bag designs. The SICOGREEN and LOUSOL brands are available both in 10 kg and in 25 kg bags, the others only in 25 kg bags.

With over 50 years of world-wide export experience & dynamism we know each soil & crop climate has specific own requirements and must be dealt with individually: this is why we endeavour to bring our clients (importers & farmers all over the world) an **INDIVIDUAL TAILOR-MADE and RIGHT ANSWER!**
