& DATASHEET

"SICOPONICS" Scientific Hydroponics – ADDITIVE RANGE

## **SICO HEATDREAMER**

*Anti-freeze for plants & advanced biostimulant – stress relief technology.*

03/2014

### **1. GENERAL NOTICE ON HARD & SOFT WATER**

SICO HEATDREAMER has proven to reduce the effects of low temperatures in growing environments on plants, **allowing the plants to not only cope but thrive when temperatures drop below 5°C.**

SICO HEATDREAMER is designed to be used by growers who are striving to reach high levels of production economically and with the technology of tomorrow, all year round.

### **2. BENEFITS**

- ANTIFREEZE FOR PLANTS
- Another unique SICOPONICS product
- Advanced biostimulant
- Protects against stress in cold and frosty conditions
- Prevents flower abortion
- Allows side-shoots and buds to develop at low temperatures
- Encourages growth hormone production
- Maintains high growth rates throughout the winter
