# CORN SALAD SEEDS

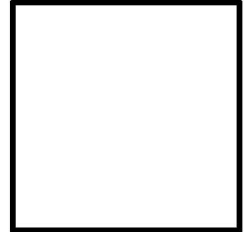

## 1. Baval

Uniform large seeded variety recommended for in- and outdoor production. Baval is fast growing and gives a beautiful full hearted rosette. The leaves are nice erect, long, rather broad and medium green in colour.

## 2. Grote Noordhollandse

A standard A grosse graine variety with an early maturity. Produces large, oblong leaves which have a medium green colour. Fairly cold tolerant. Seed size is large.

## 3. Verte de cambrai

A small seedsize variety with shiny, dark green leaves with normal maturity. Growing period is autumn and winter. Excellent cold resistant and high yielding variety.
