# PARSLEY SEEDS

## 1. Moss Curled 2

Fairly compact growing variety with medium long stalks. Excellent for bunching. Leaves are bright green, extra finely curled and retain their fresh green colour even in older plants. Maturity: ± 70-75 days from direct sowing. For fresh market and industry.

## 2. Commun 2 (Plain Leaved 2)

Standard variety of plain leaved. Leaves are medium dark green, flat (plain) and deeply cut. More flavorful than curled types. Used for flavoring and cooking. For fresh market.

## 3. Halblange (=Berliner)

Medium late variety with medium long, well filled, smooth roots. Recommended for fresh market and industry.
