& DATASHEET**

BF-HIPHOS (Broad Field)

FOLIAR water soluble NPK 10.50.03 + Mn + Zn

(with our unique AMIX technology)

E.C. Fertiliser

8/2017

1. PRODUCT DESCRIPTION

BF-HIPHOS is specifically formulated using our unique AMIX technology (= chelates with lignosulphonates and citric acid used at the levels we have determined to be most effective) for easy mixing, enhanced compatibility and efficiency of uptake.

Using BF-HIPHOS will also improve spraying water quality.

Remark: BF-HIPHOS is the only phosphate fertiliser that's really worked in the area called the 'Paris Basin', where phosphate availability is negligible and this as a foliar product really works.

2. PRODUCT SPECIFICATIONS

BF-HIPHOS contains	% w/w	g/kg
Nitrogen (N)	10.0	100
Phosphorous (P ₂ O ₅)	50.0	500
Potassium (K ₂ O)	3.0	30
Manganese (Mn)	1.0	10
Zinc (Zn)	1.0	10

3. RATES OF APPLICATION

- * programme dose : 1 kg/ha
repeated
- * preventative : 2 kg/ha

E.C. fertiliser. Use only where there is a recognised need. Do not exceed the appropriate application rates.

4. PACKING

In 10 kg bags, 1000 kg per pallet, 20 MT/20ft fcl.
