##### **Individual Feeding**

Dairy cows: 75-125 g per day

Suckler cows: 75 g per day

##### **Daily Allowance**

Will vary with feed and yield.

**NB.: 50 cows taking 100 g/day will use 20 bags in 100 days**

##### **Home mix ration**

Total concentrates 4 kg/day: 1 bag per tonne

Total concentrates 8 kg/day: 0.5 bag per tonne

#### **SPECIAL REMARK**

We also have a new ingredient called Xtract which is being used in some of our products to increase milk yields (up to 5%) improve milk quality and fertility. Reduced somatic cell counts, acidosis and urea.

This ingredient could be added to the above formula.

There is obviously an extra cost ( 207.- Eur per tonne) in this case but may well be worth considering for all the above extra benefits.

We have a lot more data on this if you are interested.

Any information in this publication is believed to be accurate and is given in good faith, but is for the customer to satisfy himself of the suitability for his own particular purpose. No representation, warranty or guarantee is made to its accuracy, reliability or completeness.
