

**PRODUCT INFO  
& DATASHEET**

## ***SICODIS-HANDS LIQUID*** (ref. CD 11)

*For hygienic clean hands*

### **COMPOSITION**

Active ingredients in 1,000 gr SICODIS-HANDS LIQUID: 600 gr isopropanol\_SICODIS-HANDS LIQUID contains degreasing and skinprotecting components.

### **APPLICATIONS**

To prevent infections by micro-organisms, it is advisory to clean and disinfect hands regularly. Scientific studies have proven that a lot of infections are caused by badly cleaned and disinfected hands.

SICODIS-HANDS LIQUID is a soft, disinfecting alcohol solution, especially developed for the use in hospitals, laboratories and in the foodindustry.

SICODIS-HANDS LIQUID:

- \* Has a very effective microbiocidal activity
- \* Has a broad activity against :
  - Bacteria
  - Fungi
  - Viruses
  - Tuberculosis

\* Is very soft for the skin, even by regular use, because of the presence of specific skin-protecting agents \*  
Is very friendly for the environment (has a biodegradability of more than 90%)

### **DIRECTIONS FOR USE**

SICODIS-HANDS LIQUID is most commonly used in automatic dosing systems

- \* General : Put up to 4 ml SICODIS-HANDS LIQUID on the hands and rub until dry
- \* For surgery :
  - 1) Wash the hands with soap and rinse with water
  - 2) Let the hands dry
  - 3) Spread 2 x 25 ml on the hands and lower part of the arms and rub during 2 to 5 minutes until dry
