SICODIS®

TOTAL HYGIENE PROGRAM FOR DAIRY

1. GEL AND FOAM CLEANING

This is the latest technique for non-corrosive cleaning, allowing longer contact time, enabling excellent performance from the terminal disinfectant.

SICODIS-GEL (ref. CD 5):

Specific gelforming, strong alkaline cleaning product. Designed to remove fatty substances and persistent dirt. At higher concentrations a clinging persistent gel is formed. Diluted more, it forms a rich, stable foam, perfect for adhesion even to vertical surfaces, and a clear indicator of treated areas.

SICODIS-FC (ref. CD 6):

A foaming formulation with a built-in disinfectant that will pre-disinfect whilst cleaning.

SICODIS-DESCAL (ref. CD 17):

A foaming descaler, will remove milkstone and limescale from stainless steel.

2. FULL SPECTRUM DISINFECTION

By spraying, foaming or fogging **SICODIS-VIRO (ref. CD 9)**, **SICODIS 5+ (ref. CD 1)**, **SICODIS-BIO (ref. CD 14)** or **SICODIS-KICKER (ref. CD 13)** will control all bacteria, viruses and fungi in your milking parlour, cubicles, calf pens and transport vehicles.

3. WOUND DISINFECTION

SICOXIDINE (ref. CD 16) is a wound healing product, to be used after all veterinary and surgical interventions.

It contains Allantoin, encourages healing and prevents contamination of any type of wound like bitten tails or castration, caesarian and naval scars.

It can be used to disinfect all surgical instruments and equipment. Ready to spray directly on the wound.

4. DRINKING WATER TREATMENT

SICODIS-WATER (ref. CD 8) or **SICODIS-CLEAN (ref. CD 18)** will clean your drinking water pipes and decontaminate all livestock drinking-water (especially effective against Enterobacteria).

Ideal for treating the water used to dilute powdered milk.

Any information in this publication is believed to be accurate and is given in good faith, but is for the customer to satisfy himself of the suitability for his own particular purpose. No representation, warranty or guarantee is made to its accuracy, reliability or completeness.

& DATASHEET**

5. FOOT BATHS

SICODIS-HOOF (ref. CD 19) prevents foot problems and encourages healing of affected hoofs. It will also harden, but not embrittle the hoof.

It is effective at all temperatures and in all types of water.

It is non-toxic for animals and staff. Replaces toxic and irritating formaldehyde.

6. MILK SYSTEM HYGIENE

Alkaline **SICODIS-C (ref. CD 7)** will remove all fat and proteins, and acid **SICODIS-PHOS (ref. CD 20)** will remove milkstone and other deposits from your pipes and tanks. Both are disinfecting and designed to be less corrosive.

7. UDDER AND TEAT CLEANING

Used as a pre-milking wash, **SICODIS-UDDERWASH (ref. CD 21)** will remove all dirt, decontaminate and condition the teat and reduce your cell count. Clean milk starts with clean teats !

8. TEAT DIPPING

Our non-drip, skin-conditioning dipping products **SICODIS-UDDERDIP (ref. CD22)** (complexed pvp iodine based) and **LACTOTEAT (ref. CD 23)** (filmogenic, lactic acid based) will decontaminate the teats and keep them in optimum condition, summer and winter. They also repel flies and protect against sun-burn.

9. TEAT SPRAYING

SICODIS-IODISPRAY (ref. CD 24) or **SICODIS-IODISPRAY 4x (ref. CD 25)** (pvp iodine based), **SICODIS-DIP SPRAY (ref. CD 26)** (chlorinehexidine based) or **SICODIS-LACTOSPRAY (ref. CD 27)** (lactic acid based) spraying products decontaminate and condition the teats. Ideal for milking robots.

10. HAND HYGIENE

SICODIS-HANDCLEANER (ref. CD 10):

Soft soap, cleans and decontaminates your hands.

SICODIS-HANDS LIQUID (ref. CD 11) or **SICODIS-HANDS GEL (ref. CD 12)** will decontaminate hands and even prevent transmission of micro-organisms and bacteria to animals and equipment.
