

**PRODUCT INFO
& DATASHEET**

SICOZYME PLUS 201

Feed enzyme to enhance digestibility & reduce viscosity of diets with high barley content

PRODUCT DESCRIPTION

Appearance SICOZYME PLUS 201 : light brown free flowing powder

SICOZYME PLUS 301 contains :

- Xylanase
- β -glucanase
- Cellulase
- Organic carrier

ADVANTAGES

The use of SICOZYME PLUS has the following advantages :

- * Increases inclusion levels for raw materials
- * Reduces feed cost
- * Excellent activity over a broad pH-spectrum
- * Highly effective at body temperature
- * Well balanced activity spectrum for barley diets
- * Decreases viscosity in the gut
- * Releases more energy from feed and raw materials
- * Breaks down cell walls for higher nutrient availability
- * Breaks down galacto-oligosaccharides and NSP's

APPLICATION & RECOMMENDED DOSAGES

General	Min 500 g/ton	Max 1000 g/ton
Barley	160 g per 10% inclusion	Max 1000 g/ton
Sunflower meal	160 g per 10% inclusion	Max 1000 g/ton
Triticale	160 g per 10% inclusion	Max 1000 g/ton
Wheat	160 g per 10% inclusion	Max 1000 g/ton
Wheat bran	320 g per 10% inclusion	Max 1000 g/ton

STORAGE

Store dry, dark & cool.

STABILITY

Stable for at least 24 months after production date.

PACKING

20 kg bags
