

**PRODUCT INFO
& DATASHEET**

SICOZYME PLUS 301

Feed enzyme to enhance digestibility of corn-soya diets

PRODUCT DESCRIPTION

Appearance SICOZYME PLUS 301 : light brown free flowing powder

SICOZYME PLUS 301 contains :

- Xylanase
- β -glucanase
- α -galactosidase
- Anorganic carrier

ADVANTAGES

The use of SICOZYME PLUS has the following advantages :

- * Increases inclusion levels for raw materials
- * Reduces feed cost
- * Excellent activity over a broad pH-spectrum
- * Highly effective at body temperature
- * Well balanced activity spectrum for corn or soy diets
- * Decreases viscosity in the gut
- * Increases protein value of feed and raw materials
- * Breaks down cell walls for higher nutrient availability
- * Breaks down galacto-oligosaccharides and NSP's

APPLICATION & RECOMMENDED DOSAGES

General	Min 500 g/ton	Max 1000 g/ton
Soybean meal	500 g per 15% inclusion	Max 1000 g/ton
Sunflower meal	375 g per 15% inclusion	Max 1000 g/ton
Rapeseed meal	375 g per 15% inclusion	Max 1000 g/ton
Peas	375 g per 15% inclusion	Max 1000 g/ton
Faba beans	650 g per 15% inclusion	Max 1500 g/ton

STORAGE

Store dry, dark & cool.

STABILITY

Stable for at least 24 months after production date.

PACKING

25 kg bags
