

Specialty Feed Additives – Prime Series

SICOACID PRIME DRY +

*Feed acidifier based on formic acid, propionic acid and their salts.
(code nr. 1003566)*

9/2014

1. SCOPE

Organic acids and their salts have been widely used successfully in intensive animal production. They are present in nature as a normal constituent of plants or animal tissues, animals have the ability to produce such organic acids within their digestive system and are mainly formed in the large intestine. Extensive research has proven that the use of organic acids and their salts within animal diets improves animal performance by keeping bacteria, mould and other harmful micro-organisms under control.

2. DESCRIPTION

Premixture. A well balanced mixture of powerful organic acids and salts.

3. COMPONENTS

Formic acid, Sodium formate, Propionic acid, clay minerals and anticaking.

4. PHYSICAL & TECHNICAL SPECIFICATIONS

| | | |
|---------------------|---|------------------|
| Physical appearance | : | powder |
| Colour | : | beige % |
| pH (10%) | : | 3.5 – 4.5 |
| Moisture | : | max. 10 % |
| Specific gravity | : | 0.84 – 0.94 g/ml |

Colour change or variation does not affect performance.

5. APPLICATION & DOSAGE

Feed (All species): 1 - 3 kg/T

6. PACKAGING

Standard 25 kg export worthy bags on wooden fumigated pallets. Other net weights 1 kg*, 5 kg*, 10 kg, 20 kg, 750-1000kg, bulk on demand.

*Marked unit packs are packed in an outer carton up to max. 25 kg.

7. SHELF LIFE

2 years stored in a cool and dry environment, away from direct sunlight, closed container
