

Specialty Feed Additives – Prime Series

SICO PRIME DW

Liquid drinkwater acidifier

(code nr. 1003555)

9/2014

1. SCOPE

Organic acids and their salts have been widely used successfully in intensive animal production. They are present in nature as a normal constituent of plants or animal tissues, animals have the ability to produce such organic acids within their digestive system and are mainly formed in the large intestine. Extensive research has proven that the use of organic acids and their salts within animal diets improves animal performance by keeping bacteria, mould and other harmful micro-organism under control

2. DESCRIPTION

Premixture. A highly concentrated mixture of organic acids with antimicrobial activity in animal feed through the reduction of pH.

3. COMPONENTS

Propionic Acid, Formic Acid and his salt, Acetic Acid, Lactic Acid and carrier.

4. PHYSICAL & TECHNICAL SPECIFICATIONS

Physical appearance	:	liquid
Colour	:	brownish
pH (10%)	:	2.56 – 3.56
Moisture	:	Max 55 %
Density	:	1.08 – 1.18 g/ml

Colour change or variation does not affect performance.

5. APPLICATION & DOSAGE

Feed: 0.5 - 3 kg/T, Drinking Water: 0.5 - 3 ml/l

6. PACKAGING

HDPE export worthy recipients on wooden fumigated pallets.
Available net weights: (0.5 lt* / 1.0 lt* / 5 lt* / 25 kg / 200 kg / 1000 kg (IBC) / bulk.
*Marked unit packs are packed in an outer carton up to max. 25 kg.

7. SHELF LIFE

2 years when stored in a cool and dry environment out of direct sunlight in unopened packing
