

**PRODUCT INFO
& DATASHEET**

NITROVIN 95

GROWTH PROMOTOR

DESCRIPTION

Growth promoting and yield raising feed additive.

SPECIFICATIONS

Bis (5-nitro-2-furfurylidene)-acetone-guanyl-hidrasone-hydrochloride

Molecular weight	:	396.75
Melting point	:	285°
Description of the substance	:	yellowish brown or red-brown powder
Purity	:	min. 95 %
Loss on drying	:	max. 2 %

USE & DOSAGE

For poultry	:	10-20 ppm
For swine and sheep	:	20-30 ppm
For calves and beef cattle	:	40-80 ppm admixed to feed.

PACKING

In 4 wall natronbag, with polythene lining of 20 kg.
