

**PRODUCT INFO  
& DATASHEET**

# **SICOXYQUIN – D**

## **66.6 % DRY ETHOXYQUIN ANTIOXIDANT**

### **PRODUCT DESCRIPTION**

SICOXYQUIN-D is an antioxidant used in the prevention of oxidation problems in feeds (poultry, turkeys, cattle, sheep, pigs, etc...)

SICOXYQUIN-D is a metabolic antioxidant.

SICOXYQUIN-D does not only stabilize fat, but continues also its activity after the feed has been consumed.

SICOXYQUIN-D prevents the oxidation and destruction of the essential nutritive factors in the live animal.

### **SPECIFICATIONS**

- Appearance : yellow to brown powder
- Density : abt. 0.5 kg/l.

### **ADVANTAGES**

- \* Brings about an increase in size and weight of the broilers.
- \* Protects the chickens against Encephalomalacia.
- \* Helps the conversion of carotene into vitamin A.
- \* Improves the pigmentation of the skin and the yolk of the egg.
- \* It is not poisonous, either in a short or long period of time.
- \* Doesn't alter either the taste nor the odour of the feed, on the contrary, it eliminates the odour and rancid tastes in the preservatives used with fats, oils, vitamins and pigments.
- \* Doesn't alter the colour of the feed.

### **USE & DOSAGE**

125 grams of SICOXYQUIN-D per 1000 kg of feed, give good results!

### **PACKING**

25 kg bags.

### **STORAGE & HANDLING**

Should be stored in a dry, cool place in the dark.
