

SICODIS LAC

THE FIRST PATENTED TEAT DIP WITH NATURAL FLY REPELLENT ACTIVITY.

DESCRIPTION

SICODIS LAC, a patented technology, is the ultimate protection for your dairy cattle for extra cow comfort. SICODIS LAC is based on natural organic acids and has a guaranteed action against bacteria causing mastitis. Moreover, SICODIS LAC has proven natural fly-repellent action, offers extra protection against sunburn and improves the teat condition, allowing extra cow comfort during summer.

SPECIFICATIONS

Appearance : yellow liquid
pH : 3.0 – 5.0
Density (20°C) : 1.040 – 1.080 kg/lt

APPLICATION

SICODIS LAC is suitable for dipping immediately after each milking. The product is supplied ready to use as a teat dip. The dip cup should hold at least 5 ml of dip. Dip each teat immediately after milking. Ensure that the teat is completely covered to three quarters of its length. The dip cup should be replenished as necessary. The dip cup should be emptied after milking and washed before reuse.

SAFETY DATA / PRECAUTIONS

Don't mix with other chemical products.
Always use a clean sprayer or dip cup.
Discard any teat dip that becomes dirty.
If signs of disease persist or appear, consult your veterinary surgeon or veterinary practitioner.
Store above 10 °C.

Please check the MSDS.
