& DATASHEET

# **SICODIS XIDIN**

## **THE FIRST UDDER RELAXING BARRIER TEAT DIP.**

### **DESCRIPTION**

SICODIS XIDIN, is a formula based on chlorhexidine. A new active plugging technology gives a full protection of the teats, by a strong viscose film.

### **SPECIFICATIONS**

Appearance : blue viscous liquid  
pH : 4.0 – 6.0  
Density (20°C) : 0.980 – 1.020 kg/lt

### **PROPERTIES**

SICODIS XIDIN is composed of:

- chlorhexidine digluconate: for a powerful activity in all weather conditions.
- menthae arvensis: brings healing and anti-inflammatory properties for better cow comfort especially during wintertime.
- allantoin, lanoline, glycerol: skin healing, softening and wetting agents that result in excellent conditioning of the teats.

SICODIS XIDIN is film forming: gives protection as barrier by the "active plugging" technology.

SICODIS XIDIN is efficient against mastitis causing bacteria, according to European tests: EN 1040 and EN 1656.

### **APPLICATION**

SICODIS XIDIN is suitable for dipping immediately after each milking. Dip the full length of the teats immediately after taking off the milking machine.

SICODIS XIDIN is ready to use: you don't have to dilute it.

### **SAFETY DATA / PRECAUTIONS**

Don't mix with other chemical products and always use a clean dip cup. Discard any teat dip that becomes contaminated.

If signs of disease persist or appear, consult your veterinary surgeon or veterinary practitioner.

Please check the MSDS.

### **PACKING**

20 lt cans
