

**PRODUCT INFO  
& DATASHEET**

## ***SICODIS XIDIN S***

### ***THE FIRST UDDER RELAXING BARRIER SPRAY/DIP.***

#### **DESCRIPTION**

SICODIS XIDIN S is the teat spray for every kind of application. It is based on a unique chlorhexidine digluconate to give complete disinfection. Thanks to the high concentration of emollients SICODIS XIDIN S gives a good teat conditioning effect. It has been demonstrated many times that teat skin conditions has direct impact on milk production.

#### **SPECIFICATIONS**

Appearance : blue viscous liquid  
pH : 4.0 – 6.0  
Density (20°C) : 0.980 – 1.020 kg/l  
Completely solubility in water.

#### **PROPERTIES**

SICODIS XIDIN S is formula based on:

- chlorhexidine digluconate: for a powerful activity in all weather conditions.
- menthae arvensis: brings healing and anti-inflammatory properties for better cow comfort especially during wintertime.
- allantoin, lanoline, glycerol, sorbitol: conditions the teats thanks to the skin healing, softening and wetting agents.

SICODIS XIDIN S is efficient against mastitis causing bacteria, according to European tests: EN 1040 and EN 1656.

#### **APPLICATION**

SICODIS XIDIN S is suitable for spraying/dipping immediately after each milking.

SICODIS XIDIN S is ready to use: you don't have to dilute it.

#### **SAFETY DATA / PRECAUTIONS**

Don't mix with other chemical products.

Always use a clean sprayer or dip cup.

Discard any teat dip that becomes contaminated.

If signs of disease persist or appear, consult your veterinary surgeon or veterinary practitioner.

Please check the MSDS.
