

PRODUCT INFO
& DATASHEET

SICO MILKREPLACERS & DAIRY PRODUCTS FOR CALVES, LAMBS, PIGLETS ETC.

We offer a selective range of high quality products:

1) FEEDLAC (replaces skimmed milkpowder)

High protein, solid feed ingredient, developed especially to replace dairy proteins like skimmed milkpowder. Combination of high-quality and highly digestible proteins and dairy products for use in formulations for piglets and broilers.

(crude protein 37.5% - crude fat 2% - crude ash 8% - lactose 19.5%)

2) SICOLAC WHITE (for calves)

Whey based water soluble complete milkreplacer for calves, produced with Sicozym-E

(a special technology that replaces the need for antimicrobial growth promoters) The product combines dairy ingredients and well selected high quality vegetable nutrients.

(crude protein 20.5% - crude fat 16% - crude ash 7%)

3a) SICOLAC EXTRA (for calves)

Whey based water soluble complete milkreplacer for calves, produced with Sicozym-E

(a special technology that replaces the need for antimicrobial growth promoters), dairy ingredients and selected high quality vegetable proteins

(crude protein 20.5% - crude fat 16% - crude ash 10%)

3b) SICOLAC EXTRA CF12 (for calves)

Good favourable economic water soluble calfmilkreplacer with good balance between dairy ingredients and vegetable raw materials. Very good price & protein ratio.

Controlled lactose with hydrolysed wheat and corn starch, keeping the total osmotic pressure of the milkreplacer below the critical threshold.

(crude protein 20% - crude fat 12% - crude ash 11%)

4) LAMBOLAC CF24 (for lambs)

Whey based complete water soluble milkreplacer, using acids in combination with cold soluble dairy raw materials, making it an ideal product for rearing and fattening lambs ! Can be diluted in water with lower temperatures than normal milkreplacers. Adapted protein and fat levels to avoid digestive problems

(crude protein 24% - crude fat 24% - crude ash 10%)

5) PIGGYLAC (for piglets)

Acidified milkreplacer for piglets. Tasty source of energy and digestible proteins, used as an additional feed to sow-milk. Adapted protein / fat level to completely fit piglets requirements. Contains acids for better technical performance of the young piglet (helps in lowering the pH of the stomach creating a healthy gut).

(crude protein 16% - crude fat 14% - crude ash 9%)

6) SICO DAIRYMIX (for piglets and calves)

A dairy feed ingredient, based on a combination of vegetable fats spray cooled on a whey carrier. Is a source of fat in combination with dairy protein and lactose to be used in formulations for piglets and calves.

(Fat concentrate + dairy protein + lactose for feeds for young animals and calf milkreplacers)

7) SICOMILK PLUS (for calves)

Whey based water soluble complete milkreplacer for calves, produced with Sicozym-E, (special technology that replaces the need for antimicrobial growth promoters)

(crude protein 21% - crude fat 17% - crude ash 10.5%)
