

**PRODUCT INFO
& DATASHEET**

DANISH CON-KIX FISH MEAL (CKFM)

Danish Con-Kix is a wholemeal made of absolutely fresh fish. This ensures a specifically low level of biogenic amines. Danish Con-Kix is produced under very mild and gentle conditions at low temperature. The total process time is merely 15 minutes and the drying takes place in an air-dryer within few seconds.

Danish Con-Kix has a very high biological value, and the protein digestibility of Con-Kix is determined by biological tests with mink.

Danish Con-Kix is especially suited for very young animals where the health of the animal is in focus. Danish Con-Kix is recommended for fingerlings, smolts, and pre-starters.

GUARANTEES

Crude protein	:	Min. 70%
Crude fat	:	Max. 13,5% (acid hydrolysis) = 11,5% soxhlet
Moisture	:	Max. 10%, min. 6%
True Protein Digestibility	:	Min. 92% determined with mink
Chlorides (salt)	:	Max. 2.5% as NaCl
Ash	:	Max. 14%
TVN	:	Max. 0.18% NH3-N
Water soluble protein	:	Min. 18%, max. 32%
Cadaverine	:	Max. 1000 ppm
Histamine	:	Max. 300 ppm
Antioxidant	:	150 ppm ethoxyquin is added both before and after drying
Quality of raw material	:	TVN max. 45 mg N/100g at entrance to cooker
Salmonellae	:	Not proved

PACKING

- big-bags (gross for net)
- meal, bulk

REMARKS

Our internal and external microbiological control, secures that the meal is in accordance with the EU-directive for fish meal. (Salmonellae not proved; Entero < 300/g).
