## Introducing **SICOGREEN® HIGH PERFORMANCE (HP) program** of fully water soluble NPK's, low in chlor with Nitrate of Potash as main K<sub>2</sub>O source incorporated at special low price.

- Made in E.U. / Netherlands -

10/2022

### **1/ INTRODUCTION**

\* In October 2022 we introduce our new range of High Performance (HP) water soluble NPK & NK fertilisers (for foliar - fertirrigation - drip – greenhouse applications), standard formulas but also tailor-made.

\* Due to a special cooperation with the world's largest Nitrate of Potash (NOP) producer, we produce our HP range **with NOP as major K<sub>2</sub>O ingredient incorporated at very special competitive price.**

Hence some of these formulas are classified IMO 5.1, UN number 1477 or 1486 due their high NOP content.

**This range is not only topquality, but also very competitively priced.**
