# **SICORGAN<sup>®</sup> LIQUID Organic Fertilisers**

## **UAB Certified Bio**

*Professional sustainable solutions, easy to apply, quick growth & response  
Safe for plants, animals and humans*

05/2026

### **INTRODUCTION**

SICORGAN liquid organic fertilisers provide 100% natural products, available for the most diverse applications and crops. Whether you want to treat your lawn or fertilize vegetables, fruit(s), herbs or ornamental plants. SICO's range offers a suitable and ready-to-use professional solution.

### **1. SICORGAN BIOLIQ-K 3-0-6**

SICORGAN BIOLIQ-K 3-0-6 is an organic compound liquid fertiliser for universal use. This fertiliser works softly at level of the plant roots and is applied at the plant foot.

SICORGAN BIOLIQ-K 3-0-6 is composed out of vinasses and animal proteins, stimulates root development and promotes the hardening of crops.

SICORGAN BIOLIQ-K 3-0-6 contains amino acids which are easily available for the plant where they stimulate the development and establishment of roots with a better crop development as result.

**Product authorized in organic farming.**

**Rate:** 10 L/1000 L water/Ha

LQ306CT	1000 L	IBC container	1

### **2. SICORGAN BIOLIQ-N 6-0-3**

SICORGAN BIOLIQ-N 6-0-3 is an organic liquid compound fertiliser for universal use through irrigation (drippers, flow tube, etc.). This fertiliser works fast, softly and persistently for targeted control of fast-growing crops.

SICORGAN BIOLIQ-N 6-0-3 is composed of organic food and stimulates the present soil life.

SICORGAN BIOLIQ-N 6-0-3 contains free amino acids that can be absorbed quickly and easily by the plant roots, resulting in improved crop development.

LQ603CT	1000 L	IBC container	1

### **3. SICORGAN ALGOLIQ**

SICORGAN ALGOLIQ seaweed extract is produced from the green & brownish seaweed *Ascophyllum nodosum*, and does not contain any chemical substances.

SICORGAN ALGOLIQ seaweed extract is very rich in organic connections, growth stimulators, trace elements and is **allowed in organic farming cultures.**

This product can be applied directly at the roots of the plant. But because trace elements are considered most fit for delivery by foliar feeding, this product can also be applied directly to their leaves.

The application of SICORGAN ALGOLIQ seaweed extract can be repeated every 2-3 weeks, and needs to be stopped when flower buds or fruit buds are being produced.

**Rate:** - Foliar spray: 4 ml/1 L water  
- Poured: 10 ml/1L water
